

## SYMPOSIUM 8300

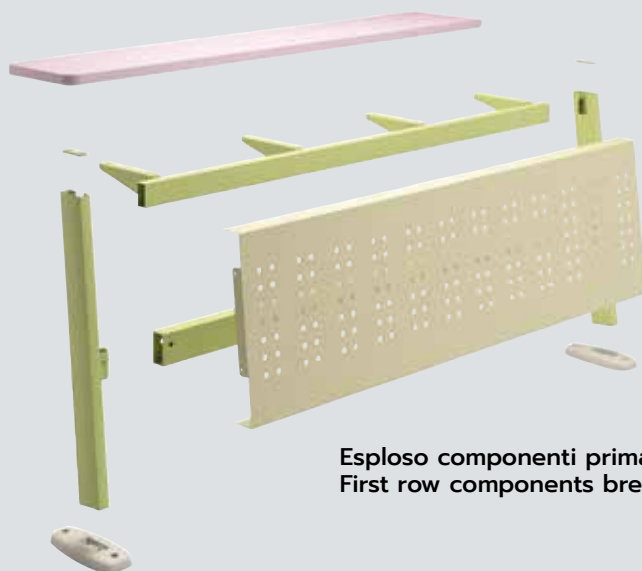

Design: OMP R&D

È un sistema di banchi da 2-3 posti componibile in file, con piano fisso e ribaltabile, ideale per sale convegni, aule e auditorium.

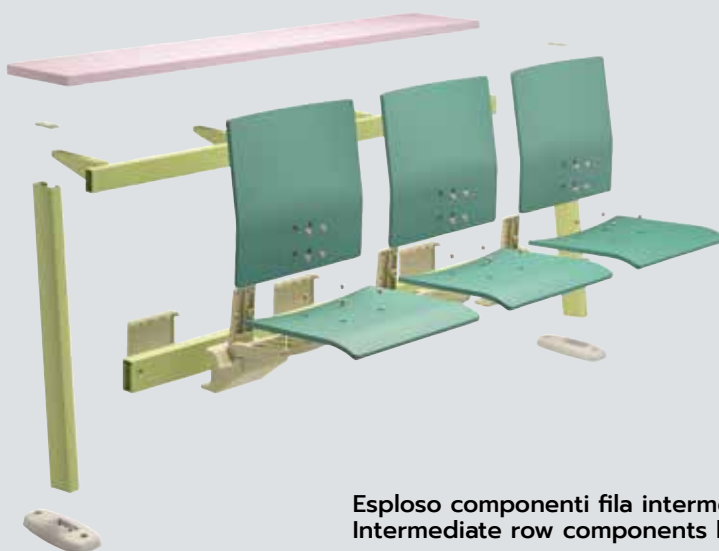

La robusta struttura metallica è rifinita in nero o grigio, i sedili sono in faggio verniciato naturale o a richiesta in altri colori, come anche i piani di scrittura a spessore variabile. Si adatta anche a sale od anfiteatri con pavimenti inclinati e gradini.

*Symposium is a system of modular row 2 and 3 seater benches, with a fixed and reclining backrest, ideal for convention halls, classrooms and auditoriums. The robust metal structure is finished in black or grey colour and the seats are in painted natural beech wood. On request they can also be painted with other colours, as can the writing boards, with variable thickness. Symposium is also suitable for halls or amphitheatres, with sloping floors or steps.*

## SYMPOSIUM 8300

Design: OMP R&D

Symposium 8300 è un sistema di banchi da 2 e 3 posti componibili in file con piano fisso o con piano ribaltabile. La struttura metallica è verniciata a polveri epossidiche, termoidurenti, antigraffio; spessore 50 micron. La finitura è nera gofrata o grigio 6429. La struttura prevede un piede in alluminio pressofuso, piantane in tubo rettangolo 80x30x2 mm, barra collegamento piantane in tubo rettangolare 80x40x3 mm, supporto sedile in alluminio pressofuso. Fissaggio del sedile con borchie metalliche, ribaltamento a molla, con ritorno automatico. Lo schienale è fissato al supporto seduta stesso. Il sedile e lo schienale sono disponibili in multistrato di faggio spessore mm 12 verniciato naturale o, su richiesta, in altri colori. Il piano di scrittura fisso è in legno truciolare e viene proposto in laminato, con spessore 27 mm o in nobilitato con spessore 25 mm con varie finiture. Il piano di scrittura ribaltabile è in legno truciolare laminato spessore 20 mm ed è possibile fornirlo in varie finiture.

*Symposium 8300 is a modular row 2 and 3 seater bench system with fixed or tip-up seats. The metal structure is coated in thermosetting non-scratch epoxy powder, thickness 50 microns. The finish is embossed black or grey 6429. The structure comprises die-cast aluminium feet, rectangular tube uprights 80x30x2 mm, rectangular tube upright connection bar 80x40x3 mm and die-cast aluminium seat support. The seat is attached with metal studs and is provided with spring tip-up mechanism with automatic return. The backrest is fixed to the seat support. Seat and backrest are available in multiply beech wood, thickness 12 mm, with natural varnish or other colours on request. The fixed writing board is available in laminated faced chipboard (thickness 27 mm) or melamine faced chipboard (thickness 25 mm) with a variety of finishes. The folding writing board is made of laminated faced chipboard, thickness 20 mm, and can be supplied in a variety of finishes.*
