— YEARS —

Launched in 2006 as an innovative product with a rigorous and essential design, characterised by the ability to combine elegantly the bold elements that compose it, the KYO collection has grown over the years to become a true system capable of offering a wide range of solutions for executive spaces, meeting and conference rooms. Without ever neglecting its characteristics and the distinctive mark that distinguishes it and makes it unique, Kyo is being renewed once again and is offered in new materials and finishes, enriching its range of accessories and solutions and confirming, once again, its timeless character.

Nato nel 2006 come prodotto innovativo dal segno grafico ed essenziale caratterizzato dal forte spessore del piano, Kyo si è lentamente evoluto in un'ampia collezione di soluzioni per scrivania direzionali, meeting e sale conferenza. Senza mai perdere il suo carattere e il suo rigore, Kyo si è costantemente rinnovato nelle finiture e nelle soluzioni per essere sempre un prodotto assolutamente attuale.

Sans jamais trahir ses caractéristiques et le signe distinctif qui la différencie et la rend unique, Kyo se renouvelle une fois de plus et s'habille de nouveaux matériaux et finitions, enrichissant sa gamme d'accessoires et de solutions et démontrant, une fois de plus, son intemporalité.

We furnish the office with the same passion as we would our own home

The concept of well-being is to take care of oneself at 360°: care of the body, richness of the mind and sensory well-being of the soul. The office environment needs to be beautiful, functional and inspire positive feelings. Research into materials, study of functionality, attention to colour and to details are some of the aspects that cannot be missing if you want to have a prestigious office in which you feel as good as at home.

Real LUXURY is taking care of ourselves

“The difference between something good and something great is attention to detail”.

Charles R. Swindol

en_Luxury is not about showing off. What really counts is the profound attention to detail, the harmony and balance that the various elements manage to give to the whole. The continuous search for innovative materials, the craftsmanship used to make the products, combined with new production technologies, create tailor-made products that can satisfy every need for space, taste and durability. Our idea of beauty is embodied in a detail.

it_Il lusso non è un oggetto da esibire, ma ciò che importa è la cura profonda per i dettagli, l'armonia e l'equilibrio che i vari elementi possono infondere nello spazio. La continua ricerca di materiali innovativi, la maestria artigianale utilizzata per confezionare i prodotti, abbinati alle nuove tecnologie di produzione, danno vita a prodotti su misura in grado di soddisfare ogni esigenza di spazio, gusto e durata nel tempo. La nostra idea di bellezza è racchiusa in un dettaglio.

fr_Le luxe n'est pas un objet à exposer. Ce qui compte vraiment, c'est le soin profond apporté aux détails, l'harmonie et l'équilibre que les différents éléments parviennent à donner à l'ensemble. La recherche continue de matériaux innovants, le savoir-faire artisanal utilisé pour réaliser les produits, associés aux nouvelles technologies de production, donnent vie à des produits sur mesure capables de satisfaire toutes les exigences en matière d'espace, de goût et de durabilité. Notre idée de la beauté est contenue dans un détail.
